Victorious Accomplishment that they might present it to their collective groups preparatory to their entering the Heart of the Silence where We do such honor to His Name.

Beloved Children of God, may I bring to you the Blessings of the Easter Season? The celebration of the life that begins to pulsate through the responsive Earth, drawn forth by the magnetic powers of the Sun is as old as life on the planet itself, because always, among the children of Earth, were those who were cognizant of the dependence of mankind upon the cooperation of the Forces of Nature for their very existence in human form.

The rhythm of the Seasons has ever been regulated by the Great Beings who offered to provide, through Their Presence within the aura of the planet, the atmosphere which would conduct the Rays of the Sun; the living, breathing earth through which the precipitation of the food and nourishment of the evolution could be accomplished and the crystal clear waters bringing refreshing, purifying essence in their presence; and the air which is requisite to life in a physical form.

Under the God-direction of the Maha Chohan of each age, the Nature Kingdom and the Great Beings who direct the Forces of the Elements have labored ceaselessly; and if it were not for their constant unchanging cooperation and service, there would not be a lifestream that could live for one minute on the planet - were the air, for instance, to be removed - or the platform of Earth on which the homes and the very feet of the people stand - or the water element of which even their bodies are mostly composed - or the life and light of the physical sun ---- !

Under God-direction, the Life Force is drawn by those of Us who serve within the Cosmic Temple of Nature, and there great Pulsating Rays of Intelligent Energy are prepared to be released as the planet enters the Spring Cycle. It is a most glorious Ceremony when the Great Devas of the Air, the Earth, the Fire, and the Water gather together, and the Cosmic Rays for another Springtime are anchored within Their bodies and They begin the great rhythmic release, through Their bodies, of the Resurrection Flame. The most beautiful music accompanies this ritual, and the Inner Spheres are alive with the Song of Resurrection and Hope.

It was for this reason that the Beloved Jesus chose the Springtime to fulfill the final manifestation of His Mastery, so that He might take advantage of the natural outpouring of the Resurrection Flame.

I, Myself, was privileged to stand with Him from the time when He breathed His last breath on the Hill of Golgotha and I received that breath into My own body to preserve it for Him, until He chose to call it back and re-establish the rhythm through His physical garment. Although I held the breath of His Life within Myself, the actual calling forth of that breath HAD TO COME THROUGH THE CONSCIOUS ENDEAVOR OF HIS OWN LIFE-STREAM, and if He had not been able to magnetize that breath, even though I stood by His side, I could not have given it unto Him. However, at the appointed moment, His Great Purified Soul was enabled to take possession of that body - and in-breathe. At that moment, I stood close by His side, and from My own lips I gave back to Him the very breath He had breathed out on the Cross, and

again the rhythm of life animated His vessel, and the concentrated Resurrection Flame soon raised it into the vibratory action of His Christ Body and He easily burst from the tomb - the Victor and Example of Life Eternal for all the mankind that shall choose to accept His Victory; and if they do not, they can never hope to share in its Joyous Accomplishment.
